

# Mirror Acrylic Sheet

**Mirror Acrylic Sheets** are crafted from extruded acrylic sheets using the vacuum metalizing process. The most common colors for these mirror panels are silver and gold; however, as a trusted supplier of acrylic mirror sheets across India, we offer customization of colors to meet customer needs.

These sheets are highly shatter-resistant, making them safer and more durable alternatives to traditional glass mirrors. Additionally, they are non-toxic, odorless, and exhibit excellent weather and chemical resistance. **Mirror Acrylic Sheets** can undergo heat treatment and laser cutting, enhancing their versatility for various applications.

Widely used across industries, these sheets serve purposes in carving, advertising, lampshades, decoration, stationery racks, gifting, kitchen and bathroom furniture, architectural design, optics, arts, and beyond.
